

TC ID	Module	Scenario	Priority	Status
TC_S3_01	Pipeline Reliability	ETL pipeline execution	High	Pass
TC_S3_02	Pipeline Reliability	Execution metrics	High	Pass
TC_S3_03	Pipeline Reliability	Bottleneck detection	High	Pass
TC_S3_04	Pipeline Reliability	Data accuracy after transformation	High	Pass
TC_S3_05	Security & Resilience	No hardcoded credentials	High	Pass
TC_S3_06	Security & Resilience	Sensitive info not logged	High	Pass
TC_S3_07	Security & Resilience	Secure credential storage	High	Pass
TC_S3_08	Security & Resilience	Restricted credentials	High	Pass
TC_S3_09	Security & Resilience	Modular pipeline architecture	High	Pass
TC_S3_10	Security & Resilience	No cross-module dependencies	High	Pass
TC_S3_13	Traceability & Audit	Agent actions logging	High	Pass
TC_S3_14	Traceability & Audit	Input/output summarization	High	Pass
TC_S3_15	Traceability & Audit	Log retrieval	High	Pass
TC_S3_16	Traceability & Audit	Audit trail completion	High	Pass
TC_S3_18	Pipeline Reliability	Large dataset handling	High	Pass
TC_S3_19	Pipeline Reliability	Performance under load	High	Pass
TC_S3_20	Pipeline Reliability	No crashes under stress	High	Pass
TC_S3_31	Data Source Integration	Database connection	High	Pass
TC_S3_32	Data Source Integration	Structured data format	High	Pass
TC_S3_33	Data Source Integration	DB error handling	High	Pass
